

The Mentoring Program – A simple way to get on track

AHRMA's Mentoring Program is designed to get new enthusiasts involved, without learning lessons the hard way. The idea is to make a newcomer feel welcome, while learning about his/her motorcycle and what it takes to get a bike on the racetrack.

A Mentor can answer questions and provide information to potential new competitors who may not know much about the workings of our great organization, and can even help on the technical side, regarding bike choices, parts suppliers and more.

If you would be willing to share information with new racers about your experiences, what is required to prepare a motorcycle, what is involved in a competition weekend, and what keeps you coming back year after year, then please let us know.

Carl Anderson is compiling a list of volunteers for roadracing and dirt track, while Rob and Debbie Poole are doing the same for the off-road disciplines. New riders will be matched to a Mentor who is geographically nearby and who shares an interest in the same type of motorcycles if at all possible. Your contact information will not be published anywhere, and we will contact you before giving your information to anyone.

Ready to get involved?

Whether you're a new racer who wants help understanding the AHRMA rules or class descriptions, or an experienced AHRMA member who would like to offer a hand, please contact Carl, Debbie or Rob to get started.

Roadrace: Gary Swan, 818.891.0330,
